SPIRAL TREE WRAP

Experience has shown that wrapping the trunks of transplanted trees greatly reduces losses due to weather conditions. Wrapping also protects trees against damage from borers and rodents.

SPIRAL TREE WRAP is a creped craft paper made up of two sheets of 30 lb. basis with a layer of asphaltum between them.

SPIRAL TREE WRAP is long lasting. It may be applied to trees in fall or spring after transplanting and should be removed about October 15th.

After the tree trunk has been wrapped with **SPIRAL TREE WRAP**, it is securely held in place by a criss-cross tie of binder twine or similar cord.

Sold in rolls about 100 feet long. 7 inches in diameter.

	1-9 rolls	10-99 rolls
3" wide.....	\$.30 per roll	\$.25 per roll
5" wide.....	\$.40 per roll	\$.32 per roll
7" wide.....	\$.50 per roll	\$.38 per roll

The average trunk is wrapped about 7 ft. high and the wrap is overlapped about half its width.

The following table is only approximate.

	3" wide spiral tree wrap	5" wide spiral tree wrap
3" tree	47 ft.....	28 ft.
6" tree		58 ft.

STATEMENT OF INSPECTION FOR TRUENESS TO NAME

Amherst, Mass., October 2, 1939

To Whom it may Concern:

This is to state that all the saleable apple, plum, pear and cherry stock now growing in the nurseries of I. E. Ilgenfritz' Sons Company near Monroe, Michigan, have been examined for trueness to name by A. P. French, O. C. Roberts and L. Southwick and, as they now stand in the nursery row all trees are, to the best of our knowledge and belief, true to name.

J. K. Shaw
Research Professor
of Pomology

You get all the roots when you buy Ilgenfritz Fruit Trees

A front view of the new Ilgenfritz Power Digger. Of course it saves time but what's more important it digs the trees with more roots than we ever were able to get before.

This rear view shows the digger in action. Notice the size of the blade.

THE ILGENFRITZ FIRMER

A well known implement in use throughout the country.

STOP HEAVY LOSS of newly planted stock by the proper firming of soil. This firmer is constructed so that additional weight can be added when necessary insuring uniform packing of soil about roots at all times. Easily steered by foot pedals. Narrow wheels cut through loose top soil and pack the earth about the roots.

\$85.00 F.O.B. MONROE, MICH.

THE ILGENFRITZ TWO ROW OPENER

*SPEED UP SUMMER CULTIVATION by proper spring planting.
Accurate spacing between pairs of rows enables you to use
standard two row tractor-cultivators saving time and money.*

Rows are equal distance apart their entire length.

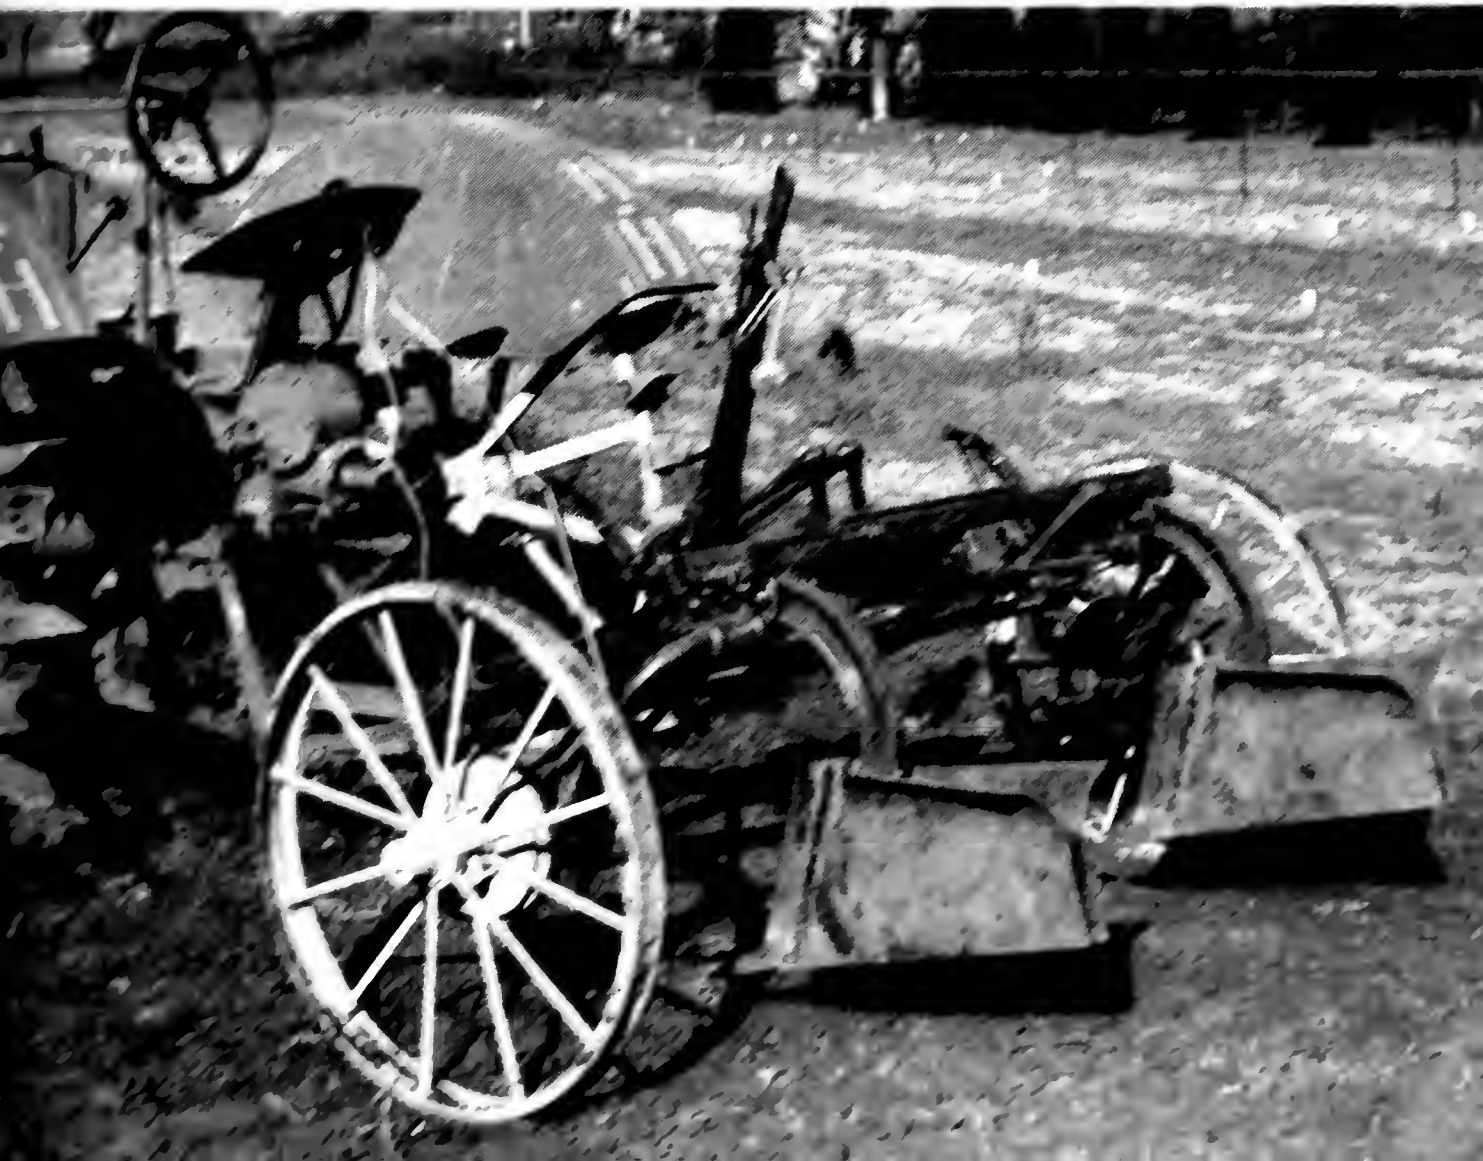

Easily attached to any tractor.

All steel construction.

\$175.00 F.O.B. MONROE, MICH.

We can also still supply the Ilgenfritz Single Row Opener.

\$95.00 F.O.B. MONROE, MICH.
